Thoughts and emotions of the parents

"Where there is righteousness in the heart, there is beauty in the character.

When there is beauty in the character, there is harmony in the home.

When there is harmony in the home, there is order in the nation.

When there is order in the nation, there is peace in the world."

— Dr. A.P.J. Abdul Kalam, United Nations, 2002

A new academic session is more than dates on a calendar—it is a fresh chapter of growth, discovery, and dreams. As we step into this year, Kranti Diwas reminds us of the young hearts that once dared to defy the impossible. That spirit, born in 1942, still whispers in every determined student who dares to dream big and live with purpose.

We, the proud students of Bharatiya Vidya Bhavan's, inherit not only knowledge but the soul of Bharat Mata. Our school teaches us that true patriotism lies in action—studying sincerely, respecting all, and uplifting others.

These school years are a blessing. Laugh deeply, live fully, and build memories that will one day define you. They won't return—but their impact will echo for life.

Let this year be a tribute to our nation—a step forward in both personal and national progress.

Jai Hind. Vande Mataram

Mast. Harshwardhan Singh
Editor-in-chief

“अपनी आज़ादी को हम हरगिज मीटा सकते नहीं, सर कटा सकते हैं लेकिन सर झुका सकते नहीं।”

K R A N T I D I W A S

Kranti Diwas, observed every year on August 9, marks the anniversary of the historic Quit India Movement launched in 1942 under the leadership of Mahatma Gandhi. It is a day of immense significance in India's freedom struggle—a powerful reminder of the courage, unity, and sacrifice that led the nation towards independence.

On this day, Gandhi gave his stirring call of “Do or Die”, urging Indians to rise against British rule with unwavering determination. The movement ignited a nationwide uprising, as millions of Indians from all walks of life joined hands in acts of civil disobedience, protests, and non-cooperation. Despite facing brutal repression, arrests, and violence, the spirit of resistance remained unbroken.

Kranti Diwas is not just a remembrance of a movement—it is a celebration of India's unyielding will to be free. It stands as a powerful symbol of patriotism and reminds us that true change is born from unity, courage, and the refusal to accept injustice.

QUIT INDIA MOVEMENT
August 9, 1942

As we observe Kranti Diwas, we honor the countless freedom fighters who gave everything for the dream of an independent India. Their legacy continues to inspire generations to uphold the values of democracy, justice, and national pride.

TEACHER'S TALK

'Let's Step into the Future Together'
By Smt. Harshada Chutele

Dear Students,
Have you ever wondered what the future will look like? Flying cars, robots, virtual classrooms, and space travel?

Maybe. But no matter how advanced the world becomes, the future still needs YOU — your ideas, your kindness, your honesty, your creativity.
The world is changing fast. New technologies, new jobs, new ways of learning are arriving every day. But one thing will never change — the importance of being a good human being. So, as we move forward, let's not do it alone. Let's step into the future together — stronger, wiser, and kinder.

Learning maths, science, computers, and languages is important. But so is learning how to be honest, how to help others, and how to do the right thing even when no one is watching. In the future, smart people will succeed — but smart and good people will lead.

Whether it's a robot helper or a smart app, nothing can replace the power of a kind word, a helpful gesture, or a smile. The future may be full of machines, but the world will still need kind-hearted people. Be one of them.

“Kindness is Never Outdated”

Don't be afraid of making mistakes.
Every mistake is a step forward if you learn from it. The best scientists, writers, and leaders all failed before they succeeded. So, try new things, ask questions, and never stop learning.

Your teachers, your parents, and your school are all walking this journey with you. We are here to guide you, cheer for you, and help you grow. Whatever the future brings, we believe in you.

The future isn't just about cool gadgets — it's about how you choose to live, learn, and treat others. Every person you meet knows something you don't. Respecting others — their thoughts, feelings, and differences — shows strength, not weakness.

We all want to be treated with kindness and respect, right? So, remember this simple rule: Treat others the way you want to be treated. If you speak with kindness, kindness comes back to you. If you choose to be rude or unfair, that energy comes back too.

That's how karma works — what you give is what you get. So before you act, think: "Would I like it if someone did this to me?"

Be someone who lifts others up, not someone who puts them down.

Because true respect isn't demanded — it's earned through your actions. You are the future, and the world is waiting for your light. So, let's move ahead, hand in hand, with confidence, curiosity, and kindness.

Let's step into the future together!

INVESTITURE CEREMONY 2025 – 2026

A Celebration of Leadership and Responsibility

The Investiture Ceremony for the academic year 2025 was held with great zeal and enthusiasm at our school on the 21st of July. The event marked a significant day in the school calendar, as it formally vested leadership roles to the newly elected student council, entrusting them with the responsibility of upholding the values and discipline of the school.

The ceremony began with the ceremonial march-past, where the elected student leaders, smartly dressed in their uniforms, marched confidently to the beats of the school band, showcasing their readiness to take on leadership roles. The Principal, along with the Incharge teachers, graced the occasion by conferring the badges and sashes and administering the oath of office to the newly appointed Head Boy, Head Girl, House Captains and other council members.

In her address, the Principal emphasized the importance of discipline, integrity, and teamwork in leadership, encouraging the council members to lead by example and serve with humility and dedication. The Investiture Ceremony not only recognized and celebrated student leadership but also inspired all students to strive for excellence and contribute positively to school life.

BLAST OFF TO NEW BEGINNINGS: MY FINAL YEAR AND THE ISRO EXPERIENCE

As Nathaniel Hawthorne puts it, time flies over us, but leaves its shadow behind. Over the past eight years, my experience as a Bhavanite has been a significant part of my life and shaped me in numerous ways. Now, it feels almost surreal to be writing this article as a student of Class X, knowing that my time here is drawing to a close. For me, the school has not only served as a centre for learning and social interactions, but as a second home. Walking through the corridors now, sitting in my classroom, I can't help but remember the first time I stepped into this school.

Over my school life, I have grown significantly – both academically and as a person. I have had the opportunity to learn a variety of subjects and explore my interests, developing critical thinking, problem solving, and communication skills along the way. I have participated in a variety of competitions, olympiads, quizzes, and more. Such experiences have played an important role in my academic development. Apart from academics, participating in cultural and co-curricular activities, collaborative projects, etc. has helped me in developing teamwork, leadership, and the ability to work with others. But even as I was doing all this, it never occurred to me that I was doing anything significantly formative. But now, I realize that these experiences have shaped me as an individual. As Dr. Seuss wrote, sometimes you will never know the value of a moment, until it becomes a memory

Among the many formative experiences I've had over the years, one recent opportunity stands out — a 15-day residential programme at an ISRO centre, the National Remote Sensing Centre in Hyderabad. In the Yuva Vigyani Karyakram (Young Scientist Programme, YuViKa), I received lectures from various scientists (including the team stationed at India's Bharati station in Antarctica), participated in various hands-on projects (such as model satellite making, rocket assembly, drone making, etc.), participated in group projects with other participants from across the country.

I also had the honour of interacting with several eminent personalities, such as Group Captain Angad Pratap (to-be astronaut in the Gaganyaan mission), Dr. Prakash Chauhan (Director, NRSC), and Dr. V. Narayanan (Chairperson, ISRO). We also had the opportunity of visiting two space-based startups, namely Dhruva Space (involved in satellite-production) and Skyroot Aerospace (involved in designing launch vehicles, and the developers of Vikram-S, India's first privately built rocket). Being a part of this initiative not only deepened my curiosity about science and space exploration but also showed me how the skills nurtured at school — from critical thinking to collaboration, from punctuality to speaking skills — are invaluable in real-world settings. This experience serves as a reminder that learning extends far beyond the classroom walls. It has broadened my horizons and inspired me to think more seriously about pursuing a future in the scientific or technological fields.

Now, as I step into my final year, my heart is full of nervousness and nostalgia, and perhaps a tinge of melancholia. I hope to make the most of my time this year, make memories with my friends and teachers, and most importantly, leave behind something meaningful, something inspirational for my juniors who will walk these corridors after me.

To my teachers — thank you for always guiding me and motivating me to do my best.

To my friends — thank you for the laughter, the debates, the shared deadlines, and all the moments in between.

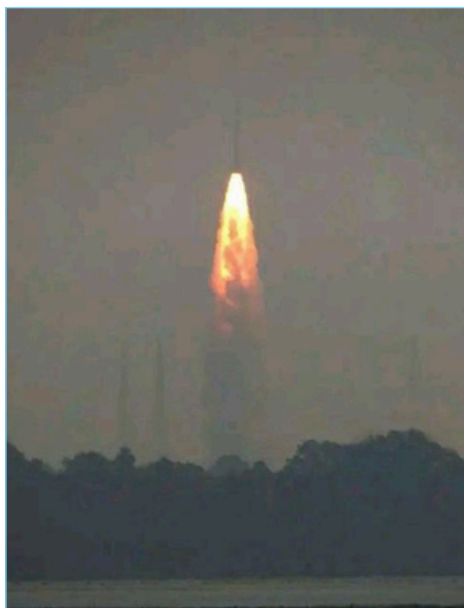

To my juniors — make the most of every moment; it all goes by faster than you think.

This is but the end of the beginning. As this chapter closes, I look forward to the next – but a part of me will always remain here, in this school, and this school will always remain in me, in my heart. I hope that my time ahead will be as memorable as my time here.

REINVENTING YOURSELF

A Better Me - Everyday

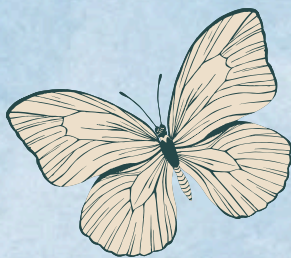

Sometimes, we all make mistakes or feel scared to try something new. But every day gives us a chance to grow and become better. That's called reinventing yourself. It means making small changes to become a better version of YOU.

Maybe you were shy before, but now you're trying to speak up in class. That's reinventing yourself!

Maybe you used to get angry quickly, but now you stop and count to ten. That's a big change!

Reinventing yourself doesn't mean changing who you are. It means improving, learning, and being kind to yourself. Try something new, read a new book, or help someone without being asked. Smile more, think big, and don't give up!

You're special just the way you are, but you can always become an even brighter and braver YOU!

Miss Darshika Bhatkulkar- VII E

Like a Butterfly!

Every butterfly was once a tiny caterpillar. It changed slowly, and one day, it grew wings and flew. Just like that, we can also change and grow.

Reinventing myself means I learn from my past and become better. If I was lazy, now I try to be active. If I didn't help at home, now I try to do small chores. If I didn't talk much, now I try to make friends.

Sometimes I fail. But that's okay! I try again. That is also a part of reinventing myself—not giving up.

Even small changes matter. Waking up early, eating healthy, speaking kindly, or finishing homework on time—all these make me stronger and smarter.

Every day is a new chance. I may not grow wings like a butterfly, but I can grow confidence, courage, and a big heart. That's even better!

Miss Chahat Chawla- VIII E

THE STANZA STUDIO

My India, My Pride

I love my land, so big and free,
With mountains, rivers, and the sea.
The flag so high, it flies with grace,
India's pride in every place.

Soldiers brave, they guard the land,
With courage strong and steady hand.
I'll work and learn and do my part,
With India always in my heart!

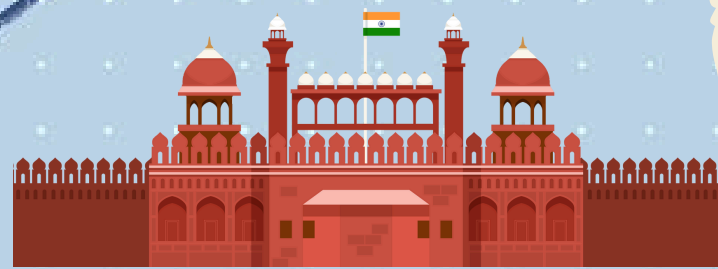

Miss Saanvi Nair- IV A

Our Brave Heroes

They march at dawn, they stand so tall,
To keep us safe, they give their all.
They wear their boots and hold the line,
Their love for India truly shines.

Let's thank our heroes, one by one,
For all the battles they have won.
I'll wave the flag and proudly say,
"I'll serve my country every day!"

Mast Bhuvik Singh- IV B

A brand-new year

A brand-new bag, a shiny pen,
I'm ready to begin again!
New teacher, books, and friends to meet,
New goals to chase, new things to beat!

I'll write and read, and draw and play,
Learn something new each single day!
With every step, I'll grow and shine,
This brand-new year will be just fine!

Mast Aarush Ahuja- III A

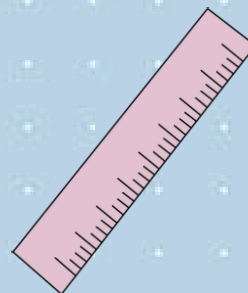

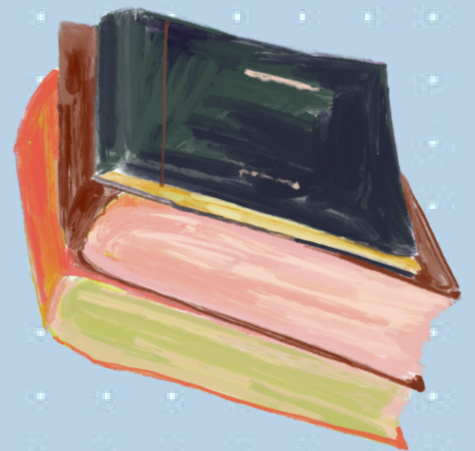

New beginnings

The sun is up, the sky is clear,
A brand-new start is finally here.
Mistakes behind, I've learned a lot,
I'll give my best in every thought.

New dreams to dream, new paths to take,
New friends to meet, new plans to make.
With hope and joy, I'll spread my wings—
This new beginning brings great things!

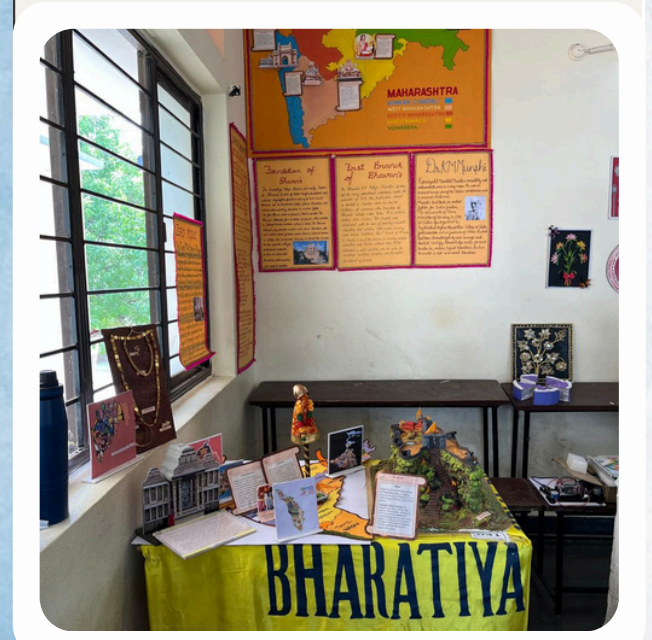

Mast Harjas Guglani- III B

“SECUNDERABAD CHRONICLES”

Camp Tales from Secunderabad

Bhavan's Sri Ramakrishna Vidyalaya, Sainikpuri, Secunderabad had organised the XIII National Integration Camp from 25/04/25 to 02/05/25. The camp strived to promote unity amongst the different cultures and regions of the branches of Bhavans all over India. The camp held for 7 days gave an opportunity to learn about the traditions, heritage, language, etc of the other regions through various activities and showcases between the students and the teachers. Not only of the other regions but a trip to the city gave a detailed look into the heritage of Hyderabad and the history behind the city. Six of our students from ninth standard escorted along with Smt. Bhawana Daharwal attended the camp with utmost enthusiasm and bought back valuable skills and precious memories.

Visual Diary

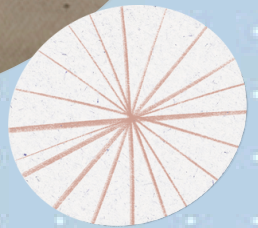

TINY TALES OF VACATIONS

Blogs from around the globe

1 - GOA

I went on an exciting trip to Goa with my family. The weather was pleasant and the beaches were beautiful. I enjoyed playing in the waves at Baga Beach and building sandcastles with my brother. We visited Aguada Fort and saw the vast sea from the top – it was a breathtaking view! We also went to a spice plantation and learned about different spices. I loved the Goan food. It was a fun-filled and relaxing trip, and I took many photos to remember it. Goa is truly a wonderful place to visit!

Miss Veera Jani VI A

2 - DIU

I went on a wonderful trip to Diu with my family. We travelled by car and saw many beautiful views on the way. Diu is a peaceful and clean place near the sea. I loved playing on the beach and collecting seashells. We visited Diu Fort and saw old cannons and high walls. I also went to the Naida Caves – they looked like a maze from a fairy tale! We ate delicious seafood, and I had fresh coconut water by the beach. The sunset was magical. It was one of the best trips of my life, and I will always remember the fun we had in Diu!

Mast Lakshya Yadav-V

3 - Bharatiya Vidya Bhavan's Sanskritik Kendra, Nagpur

Last Sunday, I went on a very special trip with my parents to a place I'll never forget—Bharatiya Vidya Bhavan's Sanskritik Kendra in Koradi, Nagpur.

As soon as I entered, it felt like I had stepped into a giant history book—but with real paintings, lights, and stories! The first thing I saw was a huge statue of Lord Hanuman standing tall and strong. I said “Jai Bajrang Bali!” and ran inside, super excited.

On the first floor, I saw something amazing—120 beautiful oil paintings telling the entire story of Ramayana! Each painting had a short explanation in Hindi, English, and Marathi, and I could actually understand everything. I saw Lord Rama's birth, his exile, the golden deer, Ravana, Hanuman flying with the mountain—and finally, the happy ending with Rama's return to Ayodhya. It felt like the paintings were talking to me!

Then we went to the second floor, called Bharat Mata Sadanam. I saw a huge bronze statue of Bharat Mata, looking proud and powerful. Around her were pictures of our freedom fighters, Param Vir Chakra soldiers, and great leaders like Bhagat Singh, Rani Lakshmibai, and Mahatma Gandhi. My heart felt full of pride! I also noticed how the whole building was decorated with carvings of gods, avatars, lions, and lotus flowers on the ceiling. It looked like a real palace of culture! My papa said, “This place teaches patriotism better than any textbook,” and I totally agreed.

No photos could ever capture the essence and beauty of the place. I didn't want to leave! If you live in Nagpur, you must visit this magical place.

Miss Samayra Tilwani - V B

“YOUNG CHEF”

Taste of Talent: Young Chef in Action

Have a look at how I made my Sandwich :

- 1. I took 2 bread slices.**
- 2. Spread butter on them.**
- 3. Then put cucumber, tomato, and potato on one slice.**
- 4. I sprinkled a little salt.**
- 5. Covered it with the other bread slice.**
- 6. Pressed it gently and cut it in half.**
- 7. My yummy sandwich was ready!**

KOALA CLUB

Glimpses of Bal mandir

The recent Parent-Teacher Meeting (PTM) was more than just a discussion of academics. Parents got a glimpse into their child's world through activity corners, creative displays, and interactive games. It was heartening to see our young friends confidently showcase their work, and parents actively engaging in fun learning tasks. Truly, it was a day that celebrated partnership, progress, and play!

“Our Kindergarten PTM was filled with happy smiles, proud parents, and little voices sharing their big achievements!”

KOALA CLUB

Glimpses of Bal mandir

Our little learners celebrated International Tiger Day with great enthusiasm! Dressed in tiger masks and stripes, the children learned about the importance of saving tigers through storytelling, songs, and craft activities. The roars of laughter and learning echoed through the corridors, reminding us that even the tiniest voices can speak up for wildlife conservation.

“Our little tigers roared with joy as they celebrated Tiger Day with stripes, smiles, and endless fun!!”

PARENTS' FEEDBACK

We are very happy with the overall growth and development of our child at your school. The teachers are dedicated, kind, and supportive. They ensure that every child gets personal attention. We appreciate the way academics and extracurricular activities are balanced, which helps in the all-round development of students.

The regular communication from the school, timely updates, and PTMs help us stay connected with our child's progress. The school campus is safe, clean, and well-maintained. We also like the encouragement given to students to speak confidently and think creatively.

Thank you for creating such a positive learning environment. We truly appreciate the efforts of the entire school team.

Parent of Mast Aryan Dhundad - VIII D

We are extremely pleased with the quality of education and care provided at the school. Our child enjoys coming to school every day and speaks highly of the teachers and activities. We can clearly see the improvement in confidence and communication skills. Thank you for nurturing our child with such dedication.

Parent of Miss Aaradhya Ukey - IV E
